PROFILE

Enterprise automation and AI systems engineer with 8+ years modernizing Microsoft 365, automating with PowerShell and ServiceNow at enterprise scale, and bridging IBM i platforms to Azure. Now building full-stack and AI tooling: LLM-driven pipelines, multi-agent systems, RouteLLM routing, and homelab AI infrastructure — all deployed governance-first under Zero Trust. Strong in Python, .NET, TypeScript, FastAPI, Docker, n8n, and secure API integration.

SKILLS

Enterprise Automation — Expert: Microsoft 365, Exchange Online, Entra ID, Intune, PowerShell
AI / LLM Engineering — Advanced: LLMs, RouteLLM, OpenAI-compatible API, multi-agent systems, local LLMs (Ollama), retrieval
Full-Stack Development — Advanced: Python, FastAPI, TypeScript, React, Next.js, .NET, SQL
Automation Orchestration — Advanced: n8n, NocoDB, Workflow Automation, JobSpy
Cloud & Infrastructure — Advanced: Azure, Docker, Linux, Cloudflare Zero Trust, Terraform
Legacy Systems — Advanced: IBM i, RPG/CL, System i
Service Management — Advanced: ServiceNow, ITIL, CMDB

EXPERIENCE

Programmer/Analyst — Murphy-Hoffman Company (MHC Kenworth) (2025-10–Present)
Developed and enhanced business applications on the IBM i platform (RPG/CL); integrated Azure, Python, and .NET with legacy systems to boost efficiency; collaborated with stakeholders to design solutions that streamline operations.
Staff Software Developer — Burns & McDonnell (2023-03–2025-09)
Designed, coded, and tested software for business challenges; led architecture and modernization incl. QTS modernization for Azure hosting; built secure REST API integrations (OAuth, Azure tokens); automated IT processes (licensing, storage archiving, data normalization) saving hundreds of admin hours annually; mentored developers via code reviews.
Staff IT System Specialist — Burns & McDonnell (2023-01–2023-03)
Directed ServiceNow architectural changes: new catalog modules and automation streamlining request handling for thousands of users; integrated workflows with Azure-hosted services incl. ESRI backup automation; documented technical decisions with governance compliance.
Assistant IT System Specialist — Burns & McDonnell (2022-07–2023-01)
Developed ServiceNow modules and catalog workflows; analyzed requirements and documented technical solutions; troubleshot SDLC issues.
Assistant IT Applications Specialist — Burns & McDonnell (2021-08–2022-07)
Troubleshot critical issues; built and maintained knowledge-base articles; documented product defects to improve quality.
End User Support Technician — Burns & McDonnell (2017-06–2021-08)
Deployed software to engineers locally and in the field; assisted with software/hardware issues.
Laptop Repair Technician — Heartland Services Inc (2016-08–2017-06)
Diagnosed and repaired Panasonic computers/tablets; board/LCD replacements; streamlined repair processes.

EDUCATION

Southern New Hampshire University — Computer Science (2020–2022)
Coastal Carolina Community College — Computer Programming (2013–2015)
